Likhitha Yella

has successfully completed the online, non-credit Specialization

Introduction to Operating Systems

This specialization is intended for people with some programming experience who seek an approachable introduction to how operating systems work on a fundamental level. This course will equip learners with foundational knowledge of operating systems suitable for any developer roles. In these four courses, you will cover everything from the basics of a C program to distributed systems. These topics will help prepare you to optimize the performance of the programs you write.
